### **DETAILED ACTION**

This application claims priority to provisional application Serial No. 60/167,250.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, 13-16, 18-24, and 25 drawn to an antimicrobial formulation, a kit and an article comprising specified components herein, classified in class 514, subclass 558 for example or 504, subclass 110 for example.
- II. Claims 12 and 17 drawn to a method for reducing microbial levels on plants employing the antimicrobial composition herein, classified in class 514, subclass 558 for example or 504, subclass 110 for example.
- III. Claims 26-30 drawn to a plant or plant part herein, classified in class 504, subclass 116.1 for example.

Inventions Group I and III; and Group II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case any antimicrobial agent other than a fatty acid monoester may be useful in a method for reducing microbial levels on plants.

The search for all inventions would place an undue burden on the Office in view of the corresponding diversity in the field of search for each.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Christopher D. Gram on July 17, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Jiang, whose telephone number is (703) 305-1008. The examiner can normally be reached on Monday-Friday from 9:00 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Minna Moezie, J.D., can be reached on (703) 308-4612. The fax phone
